

INTERIOR FLOORING: VYE BED

Purbeck Stone is an excellent choice for interior paving. It is extremely durable, ages gracefully, and its rich fossil content is enhanced by a smooth finish. We can cut flooring to any thickness, shape and size, with coursed widths random lengths (as shown here) always a popular choice.

Vye Bed has a fine-grained and shell-rich appearance, with warm mid-browns complemented with areas of blue-grey. These are the 'blue heart' at the centre of each natural block.

We cut all our flooring to order. Please visit the Our Stone page of our website for details. We also have sample panels of interior flooring laid within our showroom in Purbeck. Please get in touch if you'd like to visit, and for further details.
